

## REGULATION (EU) 1227/2011 of 25 October 2011 on wholesale energy market integrity and transparency<sup>1</sup>

Incorporated and adapted by Ministerial Council Decision 2018/01/MC-EnC of 29 November 2018.

*The adaptations made by Ministerial Council Decision 2018/01/MC-EnC are highlighted in bold and blue.*

### Article 1

#### Subject matter, scope and relationship with other Energy Community legislation

1. This Regulation establishes rules prohibiting abusive practices affecting wholesale energy markets which are coherent <...> with the proper functioning of those wholesale energy markets whilst taking into account their specific characteristics. It provides for the monitoring of wholesale energy markets by <...> national regulatory authorities <...>.
2. This Regulation applies to trading in wholesale energy products. <...> This Regulation is without prejudice to <...> the application of **Energy Community** and national competition law to the practices covered by this Regulation
3. <...> National regulatory authorities <...> and, where appropriate, national competition authorities <...> and other relevant national authorities shall cooperate to ensure that a coordinated approach is taken to the enforcement of the relevant rules where actions relate <...> to one or more wholesale energy products to which Articles 3, 4 and 5 of this Regulation apply.
4. <...>
5. <...>

### Article 2

#### Definitions

For the purposes of this Regulation the following definitions shall apply:

(1) 'inside information' means information of a precise nature which has not been made public, which relates, directly or indirectly, to one or more wholesale energy products and which, if it were made public, would be likely to significantly affect the prices of those wholesale energy products.

For the purposes of this definition, 'information' means:

- (a) information which is required to be made public in accordance with Regulations (EC) No 714/2009 and (EC) No 715/2009, including guidelines and network codes adopted pursuant to those Regulations;
- (b) information relating to the capacity and use of facilities for production, storage, consumption or transmission of electricity or natural gas or related to the capacity and use of LNG facilities, including planned or unplanned unavailability of these facilities;

<sup>1</sup> Applicable for both electricity and gas

(c) information which is required to be disclosed in accordance with legal or regulatory provisions at **Energy Community** or national level, market rules, and contracts or customs on the relevant wholesale energy market, in so far as this information is likely to have a significant effect on the prices of wholesale energy products; and

(d) other information that a reasonable market participant would be likely to use as part of the basis of its decision to enter into a transaction relating to, or to issue an order to trade in, a wholesale energy product. Information shall be deemed to be of a precise nature if it indicates a set of circumstances which exists or may reasonably be expected to come into existence, or an event which has occurred or may reasonably be expected to do so, and if it is specific enough to enable a conclusion to be drawn as to the possible effect of that set of circumstances or event on the prices of wholesale energy products;

(2) 'market manipulation' means:

(a) entering into any transaction or issuing any order to trade in wholesale energy products which:

(i) gives, or is likely to give, false or misleading signals as to the supply of, demand for, or price of wholesale energy products;

(ii) secures or attempts to secure, by a person, or persons acting in collaboration, the price of one or several wholesale energy products at an artificial level, unless the person who entered into the transaction or issued the order to trade establishes that his reasons for doing so are legitimate and that that transaction or order to trade conforms to accepted market practices on the wholesale energy market concerned; or

(iii) employs or attempts to employ a fictitious device or any other form of deception or contrivance which gives, or is likely to give, false or misleading signals regarding the supply of, demand for, or price of wholesale energy products;

Or

(b) disseminating information through the media, including the internet, or by any other means, which gives, or is likely to give, false or misleading signals as to the supply of, demand for, or price of wholesale energy products, including the dissemination of rumours and false or misleading news, where the disseminating person knew, or ought to have known, that the information was false or misleading.

When information is disseminated for the purposes of journalism or artistic expression, such dissemination of information shall be assessed taking into account the rules governing the freedom of the press and freedom of expression in other media, unless:

(i) those persons derive, directly or indirectly, an advantage or profits from the dissemination of the information in question; or

(ii) the disclosure or dissemination is made with the intention of misleading the market as to the supply of, demand for, or price of wholesale energy products;

(3) 'attempt to manipulate the market' means:

(a) entering into any transaction, issuing any order to trade or taking any other action relating to a wholesale energy product with the intention of:

(i) giving false or misleading signals as to the supply of, demand for, or price of wholesale energy products;

(ii) securing the price of one or several wholesale energy products at an artificial level, unless the person

who entered into the transaction or issued the order to trade establishes that his reasons for doing so are legitimate and that that transaction or order to trade conforms to accepted market practices on the wholesale energy market concerned; or

(iii) employing a fictitious device or any other form of deception or contrivance which gives, or is likely to give, false or misleading signals regarding the supply of, demand for, or price of wholesale energy products;

Or

(b) disseminating information through the media, including the internet, or by any other means with the intention of giving false or misleading signals as to the supply of, demand for, or price of wholesale energy products;

(4) 'wholesale energy products' means the following contracts and derivatives, irrespective of where and how they are traded:

(a) contracts for the supply of electricity or natural gas where delivery is in the **Contracting Parties**;

(b) <...>

(c) contracts relating to the transportation of electricity or natural gas in the **Contracting Parties**;

(d) <...> Contracts for the supply and distribution of electricity or natural gas for the use of final customers are not wholesale energy products. However, contracts for the supply and distribution of electricity or natural gas to final customers with a consumption capacity greater than the threshold set out in the second paragraph of point (5) shall be treated as wholesale energy products;

(5) 'consumption capacity' means the consumption of a final customer of either electricity or natural gas at full use of that customer's production capacity. It comprises all consumption by that customer as a single economic entity, in so far as consumption takes place on markets with interrelated wholesale prices.

For the purposes of this definition, consumption at individual plants under the control of a single economic entity that have a consumption capacity of less than 600 GWh per year shall not be taken into account in so far as those plants do not exert a joint influence on wholesale energy market prices due to their being located in different relevant geographical markets;

(6) 'wholesale energy market' means any market within the **Contracting Parties** on which wholesale energy products are traded;

(7) 'market participant' means any person, including transmission and distribution system operators, who enters into transactions, including the placing of orders to trade, in one or more wholesale energy markets;

(8) 'person' means any natural or legal person;

(9) <...>

(10) 'national regulatory authority' means a national regulatory authority designated in accordance with Article 35(1) of Directive 2009/72/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in electricity or Article 39(1) of Directive 2009/73/EC of the European Parliament and of the Council of 13 July 2009 concerning common rules for the internal market in natural gas;

(11) 'transmission system operator' has the meaning set out in point 4 of Article 2 of Directive 2009/72/EC and in point 4 of Article 2 of Directive 2009/73/EC;

(12) 'parent undertaking' means a parent undertaking within the meaning of Articles 1 and 2 of the Sev-

ent Council Directive 83/349/EEC of 13 June 1983 based on Article 54(3)(g) of the Treaty on consolidated accounts;

(13) 'related undertaking' means either a subsidiary or other undertaking in which a participation is held, or an undertaking linked with another undertaking by a relationship within the meaning of Article 12(1) of Directive 83/349/EEC;

(14) 'distribution of natural gas' has the meaning set out in point (5) of Article 2 of Directive 2009/73/EC;

(15) 'distribution of electricity' has the meaning set out in point (5) of Article 2 of Directive 2009/72/EC.

**(16) 'sensitive critical infrastructure protection related information' means facts about a critical infrastructure, which if disclosed could be used to plan and act with a view to causing disruption or destruction of critical infrastructure installations;**

**(17) 'critical infrastructure' means an asset, system or part thereof located in Contracting Parties which is essential for the maintenance of vital societal functions, health, safety, security, economic or social well-being of people, and the disruption or destruction of which would have a significant impact in a Contracting Parties as a result of the failure to maintain those functions.**

### **Article 3**

#### **Prohibition of insider trading**

1. Persons who possess inside information in relation to a wholesale energy product shall be prohibited from:

(a) using that information by acquiring or disposing of, or by trying to acquire or dispose of, for their own account or for the account of a third party, either directly or indirectly, wholesale energy products to which that information relates;

(b) disclosing that information to any other person unless such disclosure is made in the normal course of the exercise of their employment, profession or duties;

(c) recommending or inducing another person, on the basis of inside information, to acquire or dispose of wholesale energy products to which that information relates.

2. The prohibition set out in paragraph 1 applies to the following persons who possess inside information in relation to a wholesale energy product:

(a) members of the administrative, management or supervisory bodies of an undertaking;

(b) persons with holdings in the capital of an undertaking;

(c) persons with access to the information through the exercise of their employment, profession or duties;

(d) persons who have acquired such information through criminal activity;

(e) persons who know, or ought to know, that it is inside information.

3. Points (a) and (c) of paragraph 1 of this Article shall not apply to transmission system operators when purchasing electricity or natural gas in order to ensure the safe and secure operation of the system in accordance with their obligations under points (d) and (e) of Article 12 of Directive 2009/72/EC or points (a) and (c) of Article 13(1) of Directive 2009/73/EC.

4. This Article shall not apply to:

(a) transactions conducted in the discharge of an obligation that has become due to acquire or dispose of wholesale energy products where that obligation results from an agreement concluded, or an order to trade placed, before the person concerned came into possession of inside information;

(b) transactions entered into by electricity and natural gas producers, operators of natural gas storage facilities or operators of LNG import facilities the sole purpose of which is to cover the immediate physical loss resulting from unplanned outages, where not to do so would result in the market participant not being able to meet existing contractual obligations or where such action is undertaken in agreement with the transmission system operator(s) concerned in order to ensure safe and secure operation of the system. In such a situation, the relevant information relating to the transactions shall be reported to the national regulatory authority. This reporting obligation is without prejudice to the obligation set out in Article 4(1);

(c) market participants acting under national emergency rules, where national authorities have intervened in order to secure the supply of electricity or natural gas and market mechanisms have been suspended in a **Contracting Party** or parts thereof. In this case the authority competent for emergency planning shall ensure publication in accordance with Article 4.

5. Where the person who possesses inside information in relation to a wholesale energy product is a legal person, the prohibitions laid down in paragraph 1 shall also apply to the natural persons who take part in the decision to carry out the transaction for the account of the legal person concerned.

6. When information is disseminated for the purposes of journalism or artistic expression such dissemination of information shall be assessed taking into account the rules governing the freedom of the press and freedom of expression in other media, unless:

(a) those persons derive, directly or indirectly, an advantage or profits from the dissemination of the information in question; or

(b) the disclosure or dissemination is made with the intention of misleading the market as to the supply of, demand for, or price of wholesale energy products.

#### **Article 4**

#### **Obligation to publish inside information**

1. Market participants shall publicly disclose in an effective and timely manner inside information which they possess in respect of business or facilities which the market participant concerned, or its parent undertaking or related undertaking, owns or controls or for whose operational matters that market participant or undertaking is responsible, either in whole or in part. Such disclosure shall include information relevant to the capacity and use of facilities for production, storage, consumption or transmission of electricity or natural gas or related to the capacity and use of LNG facilities, including planned or unplanned unavailability of these facilities.

2. A market participant may under its own responsibility exceptionally delay the public disclosure of inside information so as not to prejudice its legitimate interests provided that such omission is not likely to mislead the public and provided that the market participant is able to ensure the confidentiality of that information and does not make decisions relating to trading in wholesale energy products based upon that information. In such a situation the market participant shall without delay provide that information, together with a justification for the delay of the public disclosure, to <...> the relevant national regulatory authority <...>.

3. Whenever a market participant or a person employed by, or acting on behalf of, a market participant discloses inside information in relation to a wholesale energy product in the normal exercise of his employment, profession or duties as referred to in point (b) of Article 3(1), that market participant or person shall ensure simultaneous, complete and effective public disclosure of that information. In the event of a non-intentional disclosure the market participant shall ensure complete and effective public disclosure of the information as soon as possible following the non-intentional disclosure. This paragraph shall not apply if the person receiving the information has a duty of confidentiality, regardless of whether such duty derives from law, regulation, articles of association or a contract.

4. The publication of inside information, including in aggregated form, in accordance with Regulation (EC) No 714/2009 or (EC) No 715/2009, or guidelines and network codes adopted pursuant to those Regulations constitutes simultaneous, complete and effective public disclosure.

5. Where an exemption from the obligation to publish certain data has been granted to a transmission system operator, in accordance with Regulation (EC) No 714/2009 or (EC) No 715/2009, that operator is thereby also exempted from the obligation set out in paragraph 1 of this Article in respect of that data.

6. Paragraphs 1 and 2 are without prejudice to the obligations of market participants under Directives 2009/72/EC and 2009/73/EC, and Regulations (EC) No 714/2009 and (EC) No 715/2009, including guidelines and network codes adopted pursuant to those Directives and Regulations, in particular regarding the timing and method of publication of information.

7. Paragraphs 1 and 2 are without prejudice to the right of market participants to delay the disclosure of sensitive information relating to the protection of critical infrastructure <...> and the assessment of the need to improve their protection, if it is classified in their country **according to national legislation**.

### **Article 5**

#### **Prohibition of market manipulation**

Any engagement in, or attempt to engage in, market manipulation on wholesale energy markets shall be prohibited.

### **Article 6**

<...>

### **Article 7**

#### **Market monitoring**

1. **National regulatory authorities** shall monitor trading activity in wholesale energy products to detect and prevent trading based on inside information and market manipulation **in their national market. For this purpose they may use the user manuals developed by the Agency for the Cooperation of Energy Regulators and may adopt rules on related data provision requirements from market participants.** <...>

2. National regulatory authorities shall cooperate at regional level **via the Energy Community Regulatory Board** in carrying out the monitoring of wholesale energy markets referred to in paragraph 1. <...> **Contracting Parties** may provide for their national competition authority or a market monitoring body established within that authority to carry out market monitoring with the national regulatory authority. In carrying out such market monitoring, the national competition authority or the market monitoring body shall have the same rights and obligations as the national regulatory authority pursuant to the first subparagraph of this paragraph, the second sentence of the second subparagraph of paragraph 3 of this Article, the second sentence of Article 4(2) <...> and Article 16.

3. **National regulatory authorities** shall at least on an annual basis submit a report to **the Secretariat on their** activities under this Regulation and make this report publicly available.

<...>

**4. The Secretariat shall report to the Ministerial Council on an annual basis including but not limited to the information provided under paragraph (3).**

#### **Article 8**

<...>

#### **Article 9**

##### **Registration of market participants**

1. Market participants entering into transactions **with wholesale energy products or expressing interest to enter into such transactions through orders to trade** <...> shall register with the national regulatory authority in the **Contracting Party where the delivery of the wholesale energy products takes or will take place. For the purpose of registration, national regulatory authorities shall apply the registration format developed by the Agency for the Cooperation of Energy Regulators under Regulation No 1227/2011. The Energy Community Regulatory Board shall make available an online compilation of all national registrations in the Contracting Parties.**

<...> The registration of market participants is without prejudice to obligations to comply with applicable trading and balancing rules.

2. Not later than **6 months after the deadline for national transposition of this Regulation in the Energy Community**, national regulatory authorities shall establish national registers of market participants which they shall keep up to date. The register shall give each market participant a unique identifier and shall contain sufficient information to identify the market participant, including relevant details relating to its value added tax number, its place of establishment, the persons responsible for its operational and trading decisions, and the ultimate controller or beneficiary of the market participant's trading activities. **National regulatory authorities shall apply the register format developed by the Agency for the Cooperation of Energy Regulators under Article 9(3) of Regulation No 1227/2011.**

3. National regulatory authorities shall transmit the information in their national registers to the **Energy Community Regulatory Board** <...>. Based on the information provided by national regulatory authorities the **Energy Community Regulatory Board** shall establish a **central** register of market participants.

National regulatory authorities and other relevant authorities shall have access to **this** register. Subject to Article 17, the **Energy Community Regulatory Board** may decide to make the central register, or extracts thereof, publicly available provided that commercially sensitive information on individual market participants is not disclosed.

4. Market participants referred to in paragraph 1 of this Article shall submit the registration form to the national regulatory authority prior to entering into a transaction **with wholesale energy products <...>**.

5. Market participants referred to in paragraph 1 shall communicate promptly to the national regulatory authority any change which has taken place as regards the information provided in the registration form.

### **Article 10**

<...>

### **Article 11**

#### **Data protection**

This Regulation shall be without prejudice to the obligations of **Contracting Parties and national regulatory authorities to preserve the confidentiality of commercially sensitive information laid down in national legislation. <...>**

### **Article 12**

#### **Operational reliability**

1. The **national regulatory authorities** shall ensure the confidentiality, integrity and protection of the information received pursuant to Article 4(2) <...>. The **national regulatory authorities** shall take all necessary measures to prevent any misuse of, and unauthorised access to, the information maintained in its systems. National regulatory authorities, <...>, national competition authorities, <...> and other relevant authorities shall ensure the confidentiality, integrity and protection of the information which they receive pursuant to Articles 4(2), 7(2) <...> and shall take steps to prevent any misuse of such information.

<...>

2. Subject to Article 17, the **national regulatory authorities** may decide to make publicly available parts of the information which it possesses, provided that commercially sensitive information on individual market participants or individual transactions or individual market places are not disclosed and cannot be inferred.

The **national regulatory authorities** shall make its commercially non-sensitive trade database available for scientific purposes, subject to confidentiality requirements.

Information shall be published or made available in the interest of improving transparency of wholesale energy markets and provided it is not likely to create any distortion in competition on those energy markets.

The **national regulatory authorities** shall disseminate information in a fair manner according to transparent rules which it shall draw up and make publicly available.

### **Article 13**

#### **Implementation of prohibitions against market abuse**

1. National regulatory authorities shall ensure that the prohibitions set out in Articles 3 and 5 and the obligation set out in Article 4 are applied.

Each **Contracting Party** shall ensure that its national regulatory authorities have the investigatory and enforcement powers necessary for the exercise of that function <...>. Those powers shall be exercised in a proportionate manner.

Those powers may be exercised:

- (a) directly;
- (b) in collaboration with other authorities; or
- (c) by application to the competent judicial authorities.

Where appropriate, the national regulatory authorities may exercise their investigatory powers in collaboration with organised markets, trade-matching systems or other persons professionally arranging transactions <...>.

2. The investigatory and enforcement powers referred to in paragraph 1 shall be limited to the aim of the investigation. They shall be exercised in conformity with national law and include the right to:

- (a) have access to any relevant document in any form, and to receive a copy of it;
- (b) demand information from any relevant person, including those who are successively involved in the transmission of orders or conduct of the operations concerned, as well as their principals, and, if necessary, the right to summon and hear any such person or principal;
- (c) carry out on-site inspections;
- (d) require existing telephone and existing data traffic records;
- (e) require the cessation of any practice that is contrary to this Regulation or delegated acts or implementing acts adopted on the basis thereof;
- (f) request a court to freeze or sequester assets;
- (g) request a court or any competent authority to impose a temporary prohibition of professional activity.

### **Article 14**

#### **Right of appeal**

**Contracting Parties** shall ensure that suitable mechanisms exist at national level under which a party affected by a decision of the regulatory authority has a right of appeal to a body independent of the parties involved and of any government.

### Article 15

#### Obligations of persons professionally arranging transactions

Any person professionally arranging transactions in wholesale energy products who reasonably suspects that a transaction might breach Article 3 or 5 shall notify the national regulatory authority without further delay.

Persons professionally arranging transactions in wholesale energy products shall establish and maintain effective arrangements and procedures to identify breaches of Article 3 or 5.

### Article 16

#### Cooperation at Energy Community and national level

1. The **Energy Community Regulatory Board** shall **facilitate** that national regulatory authorities carry out their tasks under this Regulation in a coordinated and consistent way.

<...> National regulatory authorities shall cooperate <...> with each other, including at regional level **via the Energy Community Regulatory Board** for the purpose of carrying out their duties in accordance with this Regulation.

National regulatory authorities <...> and the national competition authority in a **Contracting Party** may establish appropriate forms of cooperation in order to ensure effective and efficient investigation and enforcement and to contribute to a coherent and consistent approach to investigation, judicial proceedings and to the enforcement of this Regulation and relevant financial and competition law.

2. National regulatory authorities shall without delay inform the **Energy Community Regulatory Board and the Secretariat** in as specific a manner as possible where they have reasonable grounds to suspect that acts in breach of this Regulation are being, or have been, carried out either in that **Contracting Party** or in another **Contracting Party**.

Where a national regulatory authority suspects that acts which affect wholesale energy markets or the price of wholesale energy products in that **Contracting Party** are being carried out in another **Contracting Party**, it may request the **Energy Community Regulatory Board and the Secretariat** to **ensure that the requirements of this Regulation are implemented in such Contracting Party <...>**.

3. In order to ensure a coordinated and consistent approach to market abuse on wholesale energy markets:

(a) <...>

(b) <...>

(c) <...>

national regulatory authorities shall inform the national competition authority of their **Contracting Party**, the Secretariat and the **Energy Community Regulatory Board** where they have reasonable grounds to suspect that acts are being, or have been, carried out on wholesale energy market which are likely to constitute a breach of competition law.

4. In order to carry out its functions under paragraph 1, where, *inter alia*, on the basis of initial assessments or analysis, the **Energy Community Regulatory Board** suspects that there has been a breach of this Regulation, it shall **be entitled**:

(a) to request one or more national regulatory authorities to supply any information related to the suspected breach;

(b) to request one or more national regulatory authorities to commence an investigation of the suspected breach, and to take appropriate action to remedy any breach found. Any decision as regards the appropriate action to be taken to remedy any breach found shall be the responsibility of the national regulatory authority concerned;

(c) where it considers that the possible breach has, or has had, a cross-border impact, to establish and coordinate an investigatory group consisting of representatives of concerned national regulatory authorities to investigate whether this Regulation has been breached and in which **Contracting Party** the breach took place. Where appropriate, the **Energy Community Regulatory Board** may also seek the participation of representatives of **the Agency** or other relevant authority of one or more **Contracting Party and/or Member States** in the investigatory group.

5. A national regulatory authority receiving a request for information under point (a) of paragraph 4, or receiving a request to commence an investigation of a suspected breach under point (b) of paragraph 4, shall immediately take the necessary measures in order to comply with that request. If that national regulatory authority is not able to supply the required information immediately, it shall without further delay notify the **Energy Community Regulatory Board** of the reasons.

By way of derogation from the first subparagraph, a national regulatory authority may refuse to act on a request where:

(a) compliance might adversely affect the sovereignty or security of the **Contracting Party** addressed;

(b) judicial proceedings have already been initiated in respect of the same actions and against the same persons before the authorities of the **Contracting Party** addressed; or

(c) a final judgment has already been delivered in relation to such persons for the same actions in the **Contracting Party** addressed.

In any such case, the national regulatory authority shall notify the **Energy Community Regulatory Board** accordingly, providing as detailed information as possible on those proceedings or the judgment.

National regulatory authorities shall participate in an investigatory group convened in accordance with point (c) of paragraph 4, rendering all necessary assistance. The investigatory group shall be subject to coordination by the **Energy Community Regulatory Board**.

6. <...>

## **Article 17**

### **Professional secrecy**

1. Any confidential information received, exchanged or transmitted pursuant to this Regulation shall be subject to the conditions of professional secrecy laid down in paragraphs 2, 3 and 4.

2. The obligation of professional secrecy shall apply to:

(a) persons who work or who have worked for an **Energy Community institution**;

(b) auditors and experts instructed by an **Energy Community institution**;

(c) persons who work or who have worked for the national regulatory authorities or for other relevant authorities;

(d) auditors and experts instructed by national regulatory authorities or by other relevant authorities who receive confidential information in accordance with this Regulation.

3. Confidential information received by the persons referred to in paragraph 2 in the course of their duties may not be divulged to any other person or authority, except in summary or aggregate form such that an individual market participant or market place cannot be identified, without prejudice to cases covered by criminal law, the other provisions of this Regulation or other relevant **Energy Community** legislation.

4. Without prejudice to cases covered by criminal law, the <...> national regulatory authorities, <...> bodies or persons which receive confidential information pursuant to this Regulation may use it only in the performance of their duties and for the exercise of their functions. Other authorities, bodies or persons may use that information for the purpose for which it was provided to them or in the context of administrative or judicial proceedings specifically related to the exercise of those functions. The authority receiving the information may use it for other purposes, provided that the **Energy Community Regulatory Board**, national regulatory authorities, <...> bodies or persons communicating information consent thereto.

5. This Article shall not prevent an authority in a **Contracting Party** from exchanging or transmitting, in accordance with national law, confidential information provided that it has not been received from an authority of another **Contracting Party** or from the **Energy Community Regulatory Board** or the **Secretariat** under this Regulation.

## **Article 18**

### **Penalties**

The **Contracting Parties** shall lay down the rules on penalties applicable to infringements of this Regulation and shall take all measures necessary to ensure that they are implemented. The penalties provided for must be effective, dissuasive and proportionate, reflecting the nature, duration and seriousness of the infringement, the damage caused to consumers and the potential gains from trading on the basis of inside information and market manipulation.

The **Contracting Parties** shall notify those provisions to the **Secretariat** by **the deadline for transposition of this Regulation in the Energy Community** at the latest and shall notify it without delay of any subsequent amendment affecting them.

**Contracting Parties** shall provide that the national regulatory authority may disclose to the public measures or penalties imposed for infringement of this Regulation unless such disclosure would cause disproportionate damage to the parties involved.

## **Article 19**
