Statement of Rationale

The legal person “ENNA Next BH” d.o.o., Sarajevo (hereinafter: the applicant) is a holder of the temporary licence for the international electricity trading activity, recorded in the Licence Register of the State Electricity Regulatory Commission (SERC) under registration number 05-28-12-319-18/23 of 29 November 2023, which expires on 29 November 2025.

In accordance with the right to use a possibility of renewing a licence, the licensee expressed its intention to continue to perform the international electricity trading activity and filed a new licence application on 23 July 2025, which was received under number 05-28-12-236-1/25. The application filed will be decided upon pursuant to SERC rules and regulations and Article 7 of the Law on Transmission of Electric Power, Regulator and System Operator of Bosnia and Herzegovina (Official Gazette of BiH, 7/02, 13/03, 76/09 and 1/11).

The application was submitted on the prescribed forms with a proof of previously paid application fee and relevant documents which enabled SERC to understand, consider and decide upon the submitted application of which SERC informed the applicant accordingly by its act number 05-28-12-236-3/25 of 6 August 2025.

Having reviewed and checked all the formal elements of the application, on 11 August 2025 SERC published a short public notice in daily newspapers and on its web site, summarising the application and determining the deadline for submission of public comments on the submitted licence application until 19 August 2025.

SERC concluded that the public had not submitted any comment on the application filed for the issuance of licence nor had any person expressed the interest to participate in the procedure in the capacity of the intervener upon the SERC public invitation.

The applicant fulfils indisputably all the criteria, conditions and standards prescribed by law and SERC rules and regulations to perform international trade in electricity because it constantly proved its technical, legal and financial capacities during the previous period of use of the licence and provided evidence of having ensured resources, organised conditions and established professional standards to continue to perform the same activity.

Monitoring of all aspects of compliance of the applicant's activities with the conditions and criteria for performance of the international electricity trading activity so far provided SERC with the basis to initiate the issuance of a new licence, i.e. to prepare a Draft decision on issuance of licence for the international electricity trading activity, which would be valid for five years and used pursuant to the Standard licence conditions for performance of the international electricity trading activity.

As of 12 September 2025, this document was made available to the applicant as well as all other interested members of the public who were also provided with an opportunity to give their comments during a general public hearing held on 19 September 2025 at the SERC seat in Tuzla preceded by publication of a relevant notice in daily newspapers and publication of the document on the SERC web site.

As, pursuant to Article 16 para 2 of the Licensing Rule – Consolidated Version, at the general public hearing the applicant's authorised representative gave a statement waiving the right to submit further comments on the Proposal of the decision for the purpose of the efficiency of the procedure, there were sufficient grounds to conclude that it was considered that the SERC's proposal was prepared in accordance with the Law on Transmission of Electric Power, Regulator and System Operator of BiH and secondary legislation dealing with the matters concerned.

In accordance with the aforementioned and also taking into account the evidence that the applicant had been granted the licence by the Regulatory Commission for Energy in the Federation of Bosnia and Herzegovina, which is valid until 1 November 2028, SERC decided as provided in the operative part of this decision.

Pursuant to Article 9.2. of the Law on Transmission of Electric Power, Regulator and System Operator of Bosnia and Herzegovina, proceedings may be initiated before the Court of Bosnia and Herzegovina by filing a lawsuit within sixty (60) days of receipt of this decision.
