- [Market Rules](#)

The Market Rules define the relationships between the ISO BIH and licensed participants in the electricity market by defining participants themselves, the scope of their activities and commercial relationships in the electricity market.

They also define how the ISO BIH shall fulfill its obligations related to management and operation of the balancing mechanism, management of contracts for purchase of ancillary

services, provision of data for power transaction settlements (commercial metering), congestion management, allocations of fees for unplanned deviations with outer control zones, invoicing for ancillary services and balancing etc.

### CONCEPT OF ANCILLARY SERVICES FOR THE BALANCING OF THE POWER SYSTEM OF BOSNIA AND HERZEGOVINA

The Concept of Ancillary Services for the balancing of the power system of Bosnia and Herzegovina was defined by the SERC decision number 04-02-1-308-19/13 of 26 March 2014. The document is a milestone for the revision and improvement of the existing regulatory framework for the provision of ancillary services for BIH power system balancing and its operational functioning.
